Dr. Ashok Khandelwal

Dear Colleagues,

It is an honor and a privilege to serve as the Vice Chancellor of Madhya Pradesh Medical Science University, Jabalpur. The university is committed to promoting excellence, innovation, and service in the fields of medicine, dentistry, AYUSH, nursing, and paramedical education across the state. With over three decades of academic and administrative experience—particularly with the Dental Council of India, the National Medical Commission, and various esteemed universities—we aim to leverage this background to strengthen the university's identity both nationally and globally. Our primary objective is to provide students with quality education, nurturing

them into skilled, sensitive, and ethical healthcare professionals. We are equally committed to instilling a sense of nationalism and service in them. To foster research and innovation, we are dedicated to creating an enabling and inspiring environment. One of our key innovations is the introduction of medical education in the mother tongue—an initiative in which our university is the first in the country to take the lead. We firmly believe that with collective effort, vision, and commitment, we can take this university to greater heights of excellence and recognition.

Thank you.

Prof. Dr. Ashok Khandelwal Vice Chancellor Madhya Pradesh Medical Science University, Jabalpur
